Close-Up Magic

Close Up Magic is a great way to enhance your next important event. David Penn helped pioneer this modern style of magic and, as well as winning five other national magic awards, in February 2004, David finished first amongst all the British acts invited to enter the "British Close-Up Magic Championships". Because this style of magic is performed at such close quarters, David is able to move freely amongst your guests to add amazement and amusement to a drinks reception as well as entertaining at tables during dinner. His amazing sleight of hand and entertaining style of delivery will be remembered by your guests for a long time to come.

David performs amazing magic so close that, if you weren't watching live, you would think it was a camera trick. Amongst other amazing effects; spectators' watches appear on David's own wrist, bottles of Champagne appear, a borrowed signed bank note is discovered in a kiwi fruit that a spectator is holding and goldfish materialise out of thin air!

David Penn is an Associate Member of The Inner Magic Circle & 'Spellbound'-The worlds premier team of close-up Magicians.

Cabaret

From a small intimate show to a large scale illusion show, David's award winning after dinner cabaret has something special to offer that will ensure that your guests do not forget your event for a long time to come.

For a small intimate audience David presents a mostly patter orientated show featuring his famous Electric Chairs Routine and the enchanting Snow Finale.

When only the biggest and best will do, David, his two female assistants and stage crew, present an incredible illusion show that would easily be at home in Las Vegas. This show features illusions from David's touring theatre show, *"Let The Magic Begin!"*

David is a Master Illusionist and has been called upon many times to create illusions for companies and high profile individuals. Nothing is impossible and the show is only limited by your imagination.

Trade Shows & Conferences

Whether your exhibit is for public relations purposes, to pursue leads, or a combination of both, two things are crucial to achieving your objectives. First, stopping delegates from walking past your exhibit, and second, informing them of your message.

Failing to catch the delegates' attention translates into hundreds of thousands of pounds in potential sales literally walking right past you.

David Penn can create a unique presentation for your trade show stand that will stop people in their tracks and make them listen to your message while keeping them interested and entertained. By structuring his patter to suit your product, David ensures that the delegates are informed and entertained at the same time.

This can be done on a large or more intimate scale depending on your requirements.

As well as providing evening entertainment, David can act as your Magical M.C. for the duration of your conference. He will grab the attention of your delegates from the outset and use his magical skills to summarise your speakers' key points. David's motivational and engaging performance pieces ensure that your conference is more than just a forgettable day of PowerPoint presentations!
